**"I Walked Into My Boss's Office And Informed Him That
The Success Of My Home Business Has Made It
Mandatory That I Downsize My Life!"**

**One Minute Later I Quit My Job...
Two Seconds Later I Was Fired...**

Hello,

Our name's are Leiana and Rich Boudreau. I remember that discussion with my boss like it was yesterday. He told me I would regret this day and come crawling back to him on my hands and knees begging for my job back. Well, it's been four years since that fateful meeting and this year from my 11' by 13' home office I'll earn a 4-figure income -- again!

Today I live a life of leisure with no stress and no alarm clock. I get up when I want to, work when I want to and go to the beach when I want to. On the other hand, my ex-boss is still one of the rats in the rat race, working 60-70 hours a week at the same old j-o-b (just over broke).

So why am I telling you this?....

Because, maybe we can help each other out. Are you drowning under a sea of bills? Do you have a serious desire to improve your financial situation? Yes? Well, I'm expanding my business nationwide and I need your help. In order to expand, I need to set-up a few select people in their own business. By helping you, not only will you earn more money than ever before, but my current associates and I will too!

We're talking about you earning enough money, within the next few years, to allow you to live the way I live and have anything you desire!

Now you have the chance to earn the respect and income you deserve and enjoy life to its fullest. Do you want a bigger house? A new car? Time to spend with your family? How about a nice vacation. Do you hate going to work?... Who ever made up this stupid working-for-someone-else thing anyway?

I'm looking to teach and mentor a handful of people to teach my online business for stay at home Mom's!

If you've always pictured the day you could tell your boss... "I Quit", and you're ready to do something about it, then you could be one of the key people I select to set up in business. If this interests you, I urge you to read the rest of my story carefully.... Find out how I went from dead broke to a four-figure income in only 2 years!

We've Been Featured in a National Television Show with one of my chiropractors and the owners of my parent company,

I figure you're probably going to be skeptical about what I'm getting ready to share with you. So, to prove to you what we have is real, I wanted you to know that our business was featured on national TV. I think you'll agree that a national TV show wouldn't feature something that was a scam.

I also want you to know that I do not earn my money from selling you this program.

That being said, let's get on with my story....

I'd been trying to start my own home business for a number of years. I tried all kinds of things with no success. The business that fascinated me most was mail order/website dominating by placing strategic ads. There is no other business where you can make a fortune so quickly.

I soon found that you can also lose money just as quickly if you don't know what you're doing. (Here's a tip -- don't try it on your own.)

I'll never forget the day I met my new friend. She turned my whole life around...

Remember that job I quit? I used to be a manager at a painting and construction company. I was required to work 60-70 hours every week.

I didn't have a life, I barely saw my family -- In fact, I *hated* it! Anyway, our company was painting an addition on this rich lady's house. I mean, this house was huge, like a mansion with a swimming pool and several luxury cars parked in the driveway. I had no idea why she needed another room or paint job. I guess if you can afford it, it doesn't matter...

When you're working around someone's house for awhile you get to know them and see how they live. One day I was talking with the owner (her name was Erica) and I casually asked her what she did for a living and she said: "Rich, I own my own mail order/web dominating ad business. I work from an office in my house." I'm thinking to myself:

"I need to talk to this gal and find out more."

Erica and I got to talking and I found out that she is regarded as one of the most brilliant marketing minds in the country. In fact, major clients seek her out and pay her up to \$30,000 to write a single sales letter. (If I named some of the ads she's written, you'd recognize them instantly.) Erica is a multi-millionaire marketing genius and doesn't need to work another day in her life, but she keeps at it because she loves the business.

I Learned This Business from a Millionaire Myself

Anyway, Erica and I got to be friends. She agreed to take me under her wing and teach me the business as long as I promised not to compete with her.

The highly guarded trade secrets she proceeded to teach me will earn my associates and me millions of dollars over the next few years, and that's no exaggeration!

My understanding of the mail order ad website business was radically altered -- forever -- as She totally blew away most of the conventional wisdom and beliefs I'd learned from the mail order books available to the masses. It was as if he'd removed a blindfold from my eyes after years of groping in the darkness. I assure you, you'll never find the ingenious, one-of-a-kind techniques I've learned in any book anywhere.

Things such as:

The exact words to use in your ad websites to get your Mom's to lust for your product so badly that he/she has no option but to order.

How to locate the very best ad mailing lists to mail (this is a major insider secret). How to design simple web sites that you profit from.

The secret to writing a ad sales letter that draws customers like sharks to blood.

How to identify and locate the "hungry crowd" and create a feeding frenzy by selling them what they are dying to get their hands on.

I could go on and on, but there's not enough room here...

We were having dinner one night. She was helping Leiana and me lay out a road map for our new business. About halfway through dinner, We got so excited, we couldn't even finish the meal! we literally ran away from the table to put my new plan into action.

My income went through the roof in only 6 months....

.... Using the information I learned from my millionaire friend. On some days, the cash and checks poured in so fast, I had to use a cardboard box to carry them all to the bank! Over the next few years my mail order website business brought me in hundreds of hundreds of dollars. I'm forever grateful to Erica. I'll never have to go back to that lousy old job again! I can't begin to tell you how good it feels to be financially secure after years of struggling.

Now, you can do it too! You can enjoy the benefits of earning all the money you would ever want, without a boss breathing down your neck!

As I mentioned before, Leiana and I are expanding our business in Hemet area and nationwide. But there is far too much business for me to handle myself! I need your help. I'm looking for a few key associates who want to make money and are willing to learn. I'm offering you the chance to copy my success, and teach you how to place ads on websites that get indexed on the front page of google fast.

This isn't a mail order course. I'm actually going to set you up in your own home business. I'm going to furnish you with proven, hot selling, high demand products; Products that truly make a positive impact on people's lives. You'll also get the mail order website techniques, the sales letters and easy, step-by-step instructions needed to be successful. Plus, my associates and I will personally work with you, train you and help you every step of the way (for free). We'll do whatever it takes to help you become successful.

You see the more websites that you build! the more money I make, and it get's even better...once you are trained I will turn you loose to train other's so you can share in the profits that they make.

It's the same concept that McDonald's uses with enormous success. There's no luck involved. There's no trial and error. Everything is laid out for you. I've developed this business, perfected the formula and now I'm looking to teach my web site secrets to you.

I'd like to teach a limited number of business "partners" who will multiply my efforts and automatically create wealth for themselves, and of course I will share in the profits too. I earn money by helping you earn money.

I'm literally giving you your own million dollar business on a silver platter... There's nothing for you to think about or figure out. Everything has already been done and tested for you.

You can immediately start generating a flood of cash orders into your mailbox everyday! This is the very best niche business in America today.

(Don't worry, this business can be started with a small budget, working just a few hours a week from the comfort of your home. It doesn't require stocking any inventory, any selling, face-to-face contact or previous business experience.)

Look.... Proof that our business works !!!

We have people from every background that are finding success with my business. Many people, just like you, are making \$2,000-\$3,000 per month within the first 12 months, and much, much more within a year. It doesn't matter where you live, how old you are, or what your occupation. All you need to succeed is desire and the willingness to learn.

We're really no different from you. We're just regular people. The difference is, we acted on our desire to improve our financial situation. What about you.... Do you want more out of life? If you found something that you knew was working, would you do it? After all, if you don't do something to change your life, it will surely remain the same.

My phone number is 951-537-7969. You'll be able to consult with me or Leiana over the phone anytime. Yes, if you call this number, I'll answer the phone myself (unless I'm out at the lake relaxing at the beach). But please don't call me now and ask me what this business is about because **I can't explain it to you over the phone**. It would take too long. I'm only giving you my number now, so you'll know I'm a real person and trust me. After you've reviewed the material we're going to send you, then I'll be happy to answer your questions.

There's not enough room to explain everything in this letter. All of the secrets are revealed in my Book The Getting Started Manual. It will explain everything about the business, plus it has everything you need to get started right away!

Risk-Free Refundable Deposit

To show your sincerity, I'm asking for a small, good faith, refundable deposit for the The Getting Started Manual (this is not how I make my money). Once you review the materials we send, we'll schedule a

phone consultation to answer your questions and see if we can work together. If you decide it's not for you, just send it back within 30 days and we'll refund your deposit immediately. Fair enough?

So, if you want to join our exclusive inner circle you must act quickly. I'm only going to select a limited number of associates to set up in business. Once these key positions are filled, you'll be out of luck. If you really think about it, the only way you can lose is if you fail to respond. And if you fail to respond, *you'll never know what might have happened for you!*

You know, it really isn't going to affect me one way or the other if you respond or not. My business will continue earning my associates and me thousands of dollars with you -- or without. But it will affect you. The question is, do you want to join us and make money or continue working at your j-o-b? One year from now, will you be richer -- or just older?
